***The Enemy at His Pleasure: A Journey through the Jewish Pale of Settlement during World War I* by S. Ansky; edited and translated by Joachim Neugroschel**

Ansky, the Yiddish-Russian writer, organized a relief operation to help Jews trapped between the armies of Russia, Germany, and Austria during World War I. He recorded a remarkable tale of cruelty: rape, looting, expulsions of villages, humiliations, lynchings, kidnappings, torture, and massacres. This book, first published in Warsaw in 1925, after Ansky's death, offers both the sweep of history and an intimate portrait of an era of unfathomable evil, a holocaust before the Holocaust.

***Einstein's Jury: The Race to Test Relativity* by Jeffrey Crelinsten**

The dramatic story of how astronomers in Germany, England, and America competed to test Einstein's developing theory of relativity. Weaving a rich narrative based on extensive archival research, Crelinsten shows how these early scientific debates shaped cultural attitudes we hold today.

***Einstein's Jewish Science: Physics at the Intersection of Politics and Religion* by Steven Gimbel**

Is relativity Jewish? The Nazis denigrated Albert Einstein's revolutionary theory by calling it "Jewish science," a charge typical of the ideological excesses of Hitler and his followers. Gimbel explores the many meanings of this provocative phrase and considers whether there is any sense in which Einstein's theory of relativity is Jewish.

***A Child of Christian Blood: Murder and Conspiracy in Tsarist Russia* by Edmund Levin**

A dramatic account of the wrongful 1911 arrest of a Jewish factory worker for the murders of two Christian victims, a case that inspired *The Fixer*. Offers insight into period anti-Semitism in Russia while describing the show of celebrity international support for the defendant.

Between 1917 and 1921, Jewish intellectuals and writers across the Russian empire pursued a "Jewish renaissance."
